Nehemiah Strong

This is a book that every Christian man should consider buying. As we face new challenges to our constitutional rights we need to rise up before it is too late. This book stresses a closer relationship to God which is always good as He is our refuge and strength, an ever-present help in trouble. I think the material in this book would serve well in a men's bible study.

Excellent and Timely Source of Urgently Needed Strategic Information

John Dyslin gives the reader various plans for current situations we may face. He backs up the information with an enormous amount of Bible scripture on every page. The book becomes a manual and workbook for reference with forms we can copy and use. There are various exhibits to use to quote or reference. I hope I never have a need for using some of the book but feel more confident having it handy. We need to stand strong based on what Yeshua taught us.

Relavent and Empowering

As a former Pastor raised in the teachings of the Rapture, I often think "How many believers just sit back and says it won't happen to me, I'll be gone." Believing in the rapture or not doesn't determine your eternal destiny.A relationship with Jesus Christ take care of your eternity!

This book equips you to prepare Mentally, Emotionally, Spiritually and physically for the problems in society today. If God chooses to remove us before all **** breaks loose; Praise the Lord!, but if by chance we have to face tribulations and trials you need to be prepared!

This Book is a Guide to Standing Strong in Time like these.

Supernaturally Appropriate

What a great book! The excellent aspect is the range of necessary topic coverage, to address all of the existing issues relevant today. I'm retired military, Infantry trained, some 50 years ago, your book has brought back to memory many issues. Military training is, however, but one issue of the myriad of topics covered. Excellent, excellent book for what we are faced with today.

A Necessity

An inspiring guide for those in need. From spiritual encouragement to legal rights, and for preparation for the coming chaos. A wealth of information, this was worth every penny.

Focussed Beginning

Since I'm living in Europe, it took awhile for me to receive my copy. Even so, it did arrive quicker than usual. I've browsed through this huge book & found it jam packed with valuable information.

Since I have a lot on my plate at the present, I need to pace myself as I go through it all. I'm focused on the scriptural information at the beginning of the book because I think that's the most important place to begin. God is the center of my life & feeding on His Word is more important to me than anything else.

From there, I will have to decide how to prioritize getting through the rest of the book. Massive amount of valuable information, just massive!

Hard to Put Down

A difficult book to put down. Extremely well written, well organized material, for today's rapidly changing challenges, presented in a frank and easy-to-understand format that includes summary pages as an intro to the detailed chapters. A resource book to recommend to friends and family members looking for common sense strategies in dealing with the great evil during this most unique period in history. We must gird ourselves with every tool our Lord has given us, and become modern day Queen Esthers and spiritual warriors able to stand by HIS authority against the evil blatantly coming against us and our children. God bless John for being faithful and following through with such a detailed project. Your library is incomplete without this one!

A Must Have for Every Believer!

Excellent, Holy Spirit Power packed and practical information packed book. I want every Christian I know to get their own copy of this book. The time is short, this book is for NOW! I read this book with a highlighter in hand. All of the bible verses with the bricks around them I am putting in an index card notebook for prayer reference. I am doing the same with all of the warfare verses. God is building His army. I have been in the book of Nehemiah a lot over the last couple of years. The Holy Spirit is working on us to be of one mind and in one accord. Thank you John for following the Spirit's leading and getting this done! God bless you!!!
